Hi Parents,

We will be having our Owl unit test on Wednesday. Students have their duo-tangs and can study the vocabulary words review sheet this weekend. We will be working on another review during class. In addition to the vocabulary review sheet, students will be asked to define producer, consumer, decomposer, food chain and food web. I have included the newest definitions. They are in the duo-tang as well.

On Thursday, we will have the opportunity to hear a presentation from Prairie Wildlife Rehabilitation Centre. We will have a deeper look into the owl species found in Manitoba. For our **"Thoughtful Thursday,"** we are asking families to consider helping out with some of the needs at Prairie Wildlife. Please see the attached form.

The skating rink is ready! Students can skate during recess time. They must wear a helmet. The rink will be used for skating only. Hockey games will remain on the pad. Just as a friendly reminder, skating in Gym classes will start in January. Will keep you posted on the official date.

We are getting close to our goal of one pig. If you would like to contribute, please send in money by Friday.

The Grade 4 classes will have Music Show & Tell on Tuesday, December 17th. This is an opportunity for students who take music or dance lessons outside of school to perform for their class and share what they are working on. Students who don't take lessons but would like to perform something could bring or make an interesting instrument to demonstrate for us and tell us about, or practice a song to sing. This class is about students making music for their classmates, with **the emphasis being on sharing something that the student has practiced and prepared** rather than listening to music, so we will not listen to CD's. Performing is optional, and we will all have the opportunity to practice appropriate audience behaviour! Thank you, Mrs. C. Taves

Class Party- Our party will be Friday afternoon. Students are welcome to bring a snack and/or board game to play.

I pray that you all have a safe and blessed Christmas with your family and friends.

Blessings,
Dyana

Producer- is an organism that makes its own food.

Consumer- is an organism that eats plants and animals for food.

Decomposer- is an organism that breaks down dead plants or animals for food.

Food Chain- The way that energy passes from one organism to another

Food Web- is many food chains connected together.
